

Project Demo Planning

Date	03 July 2026
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-planned project demonstration helps present the Personalized Networking Assistant effectively by highlighting its objectives, AI-powered features, implementation, and overall workflow. The demo is organized to provide a clear understanding of the project, showcase its key functionalities, and explain the technologies used during development.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the Personalized Networking Assistant and explain its objectives.	2	M. Yaswanth Satya Siva Kumar
2	Problem Statement	Explain the networking challenges addressed by the project.	2	M. Yaswanth Satya Siva Kumar
3	Solution Overview	Explain the system architecture, AI models, technologies, and workflow.	3	M. Yaswanth Satya Siva Kumar
4	Live Feature Demonstration	Demonstrate event analysis, conversation starter generation, fact verification, and conversation history.	5	M. Yaswanth Satya Siva Kumar
5	Deployment Demonstration	Show GitHub repository and Render deployment	10	M. Yaswanth Satya Siva Kumar
6	Conclusion	Project summary and answer evaluator questions	30	M. Yaswanth Satya Siva Kumar

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an AI-powered networking assistant and the challenges users face during networking events.
2	Solution Overview	Describe the project architecture, FastAPI backend, Streamlit frontend, DistilBERT, GPT-2, and Wikipedia API integration.
3	Live Feature Demonstration	Demonstrate user login (if available), event description analysis, AI-generated conversation starters, fact verification, and conversation history.
4	Q&A Session	Answer evaluator questions, discuss future enhancements, and conclude the demonstration.
